## COMMUNITY DROP-IN SESSIONS FOR ENTERPRISE NORTH - 1 PROJECT

### BACKGROUND

The Enterprise North – 1 Project is a program to develop an onshore natural gas reservoir in the Victorian Otway Basin. ADZ Energy is seeking approval to undertake exploration drilling to determine the commercial viability of a potential onshore gas field in Petroleum Exploration Permit 169.

### PURPOSE OF COMMUNITY SESSIONS

ADZ Energy is committed to engaging with stakeholders and keeping them informed of project activities and providing opportunities to provide feedback. The regulator will be provided a report on all consultation with stakeholders in line with regulatory requirements. The format of these sessions is designed to allow community members to drop in at their discretion for one-on-one discussions.
